

- Mr. L needed assistance in job readiness and options to improve his current living situation. The Vet Rep working with Mr. L went over his past endeavors and future goals, and discussed a plan of action to find more meaningful employment. The Job Center made service referrals for assistance with a VA claim and the opportunity for training in a field of study more conducive to his personality. The Job Center followed his progress bi-weekly and assisted as needed. Mr. L is set up for training with Wyndham Resorts and will be hired subsequently.
- Staff at the Job Center completed an assessment for Mr. F and provided him with Labor Market Information. The DVOP provided a service referral for housing assistance. With the assistance of Catholic Charities, Mr. F moved to the Belton area and contacted the DVOP in the Independence area. Mr. F found employment as a maintenance technician and started on 29 Mar 2017.
- Ms G came into the Chillicothe Job Center seeking assistance with finding full-time employment. The DVOP assisted her with crafting a targeted resume, preparing for and participating in interviews, and discussed preparation for various local application processes. After a short period of time the Veteran became job ready. Ms G took strong initiative and used the Chillicothe Job Center resources to apply, interview, and ultimately gain employment. She was patient and calculated about her search for employment and was able to apply all her learned skills.
- After Job Center staff met with Mr. M and conducted an assessment, it was determined that he was eligible to participate in the Show-Me Heroes On-the-Job Training (SMH-OJT) program. Mr. M expressed interest in becoming a CNC Machinist, which he felt was a great opportunity and good paying field for the Springfield area. He expressed interest in working for Tank Component Industries (TCI) and thought if he could obtain this type of training he could obtain employment with them. He was referred to the SMH-OJT Coordinator for enrollment and OJT program development. TCI agreed to train Mr. M to become a CNC Machinist with a starting wage of \$12.50 per hour for a projected training period of 1,040 hours. He is scheduled to finalize his training and become a full time CNC Machinist with TCI the last week of June 2017.
